30	70,225	75,703	92,478	96,030	105,773	109,395	116,234

Teacher pay moves down the scale with each year of experience and across the scale for post-Bachelor's degree semester units completed. The numbers also reflect "career increment" raises of \$2,648 at the beginning of the 13th, 16th and 20th years of experience, and \$3,452 at the 25th and 30th year marks. In addition to the base salary amounts, for every advanced degree a teacher earns an extra \$2,219. Additional pay can also be earned by taking on additional duties, such as serving as a teacher adviser, instructional supervisor, etc.

Compensation is for 187 days work, or 8.6 months. To convert to full-year equivalent pay, multiply by 1.4. (A teacher making \$100,000 for 8.6 months work is equal to a 12-month compensation rate of \$140,000.) Highlighted area shows positions on the salary schedule exceeding \$100,000.

Teacher pay moves down the scale with each year of experience and across the scale for post-Bachelor's degree semester units completed. The numbers also reflect "career increment" raises of \$2,648 at the beginning of the 13th, 16th and 20th years of experience, and \$3,452 at the 25th and 30th year marks. In addition to the base salary amounts, for every advanced degree a teacher earns an extra \$2,219. Additional pay can also be earned by taking on additional duties, such as serving as a teacher adviser, instructional supervisor, etc.

Compensation is for 187 days work, or 8.6 months. To convert to full-year equivalent pay, multiply by 1.4. (A teacher making \$100,000 for 8.6 months work is equal to a 12-month compensation rate of \$140,000.) Highlighted area shows positions on the salary schedule exceeding \$100,000.

\$100,000 salary or more (in 2016-17)

This chart shows how many teachers (FTEs) are at each position on the teacher salary schedule as of January, 2016 and uses colors to show where the most teachers fall on each point of the schedule. The largest group of teachers (34), shown in red, are at the maximum salary level under the schedule, with 30 or more years of experience. The group that will be paid \$100,000 or more in 2016-17, not including the 1% "off-schedule" bonus, are outlined with a black border.

This chart shows the percentage increase in pay teachers receive as they move down the salary schedule. A teacher moves down the scale with each year of experience, whether or not it was at PAUSD. See other table for the increases as teachers obtain additional educational credits. In addition to the base salary amounts, for every advanced degree a teacher earns an extra \$2,219. Additional pay can also be earned by taking on additional duties, such as serving as a teacher adviser, instructional supervisor, etc.

This chart shows the percentage increase in pay teachers receive as they move across the salary schedule due to earning semester units of academic credit, either prior to or after joining PAUSD. See other table for the increases teachers receive for completing another year of teaching. These increases are in addition to those from overall increases adopted in the union contract. Additional pay can also be earned by taking on additional duties, such as serving as a teacher adviser, instructional supervisor, etc.
